# Reverse-Engineer Your Financial Goals

**Your Editable Workbook**

# Module 6: *Financial Plan*

Before a financial goal is met, it must be planned out! Decide what you want your business to earn each month, as soon as possible. Name and claim that number.

Write that dollar amount below.

List the bills that this dollar amount will pay

How many product /packaged service sales will you need to make to hit your monthly goal?

How many people will you need to speak to in order to sell the number of product /packaged service sales needed to hit your goal?

What do you need to 'practice and perfect' in order to convert those customers?

What activities do you need to do TODAY to make sure you hit your goal this month? For this activity, download a free monthly calendar at <http://www.pdfcalendar.com> and start planning out your month NOW.

Congrats on completing your  
*Financial Planning* work!

*Remember, s/he who fails to  
plan, plans to be underpaid!*

*Make your plan to hit your  
numbers TODAY!*
